PRECISION GAGES

## RECALIBRATION AND REWORKS

Since Martel Tool builds the most accurate gages and precision fixtures in the world, it only stands to reason we have the capability to restore and recalibrate worn gages to meet today's stringent standards. Using state-of-the-art, computer-controlled equipment Martel also offers precision jig boring and jig grinding services.

## DYNAMIC GROWTH

Founded in 1958, Martel Tool Corporation has become a world leader in the design, manufacture and reworking of precision gages and inspection fixtures. But as a preferred supplier to top automotive, defense, electronics and medical prosthesis firms, we are not content to rest on our achievements. We are constantly broadening our horizons to keep pace with our customers

PRECISION GAGES

## ENGINEERS AND CRAFTSMEN

Martel Tool Corporation has always been at the forefront of special inspection gage and inspection fixture manufacturing. The reason? Because our highly trained, experienced staff of engineers and craftsmen are attuned to working with extremely close tolerances. This enables Martel Tool to design, engineer and fabricate gages that meet or exceed the demands of today's world-class manufacturers.

Tomorrow's  
Technology*

## QUALITY

Nobody understands quality assurance better than Martel Tool. It's our business. That's why our customers include the most discriminating corporations and agencies in the world. Our commitment to quality is unsurpassed because we:

- maintain a zero-defect policy,
- have a computerized calibration system and machine maintenance program that meets the most exacting standards,
- adhere to strict climate controls (68°F),
- are MIL-I-45208A and MIL-STD-45662A approved
- design and manufacture our gages to get the best GR&R reading attainable,
- are traceable to the National Institute of Standards and Technology
